1/5

Procedure	Price for self-payers (out-of-pocket price) in EUR
<b>DIAGNOSTIC SERVICES FOR WOMEN</b>	
Test of the ovarian reserve (AMH + AFC)	50
Gynecology ultrasound check-up	20
Ultrasound examination of fallopian tube patency (HyFoSy)	150
Uterine NK cell test	100
BeREADY endometrial receptivity test (including sample collection)	600
<b>DIAGNOSTIC SERVICES FOR MEN</b>	
<b>Semen analysis</b>	
Comprehensive semen analysis following the WHO guidelines	30
<b>Functional sperm test</b>	
Trial wash test	45
Test for sperm antibodies in ejaculate	60
Sperm DNA integrity test - HALOSPERM	130
Sperm DNA integrity test over time - Dyn Halosperm	250
Oxisperm	60
Vital Test	30
SpermPack - comprehensive examination of the semen analysis (concentration, motility, sperm morphology, sperm antibodies, sperm DNA integrity test, Oxisperm, Vital Test).	240
<b>DIAGNOSTIC SERVICES FOR COUPLES</b>	
Postcoital test - sample collection	15
<b>Treatment of infertility</b>	
Intra-uterine insemination with the partner's sperm (IUI)	150
Intrauterine insemination with donor sperm (IUD)	400
Monitoring of gonadotropin stimulation in the IUI cycle	50
Intraovarial application of ACRS/PRP including general anaesthesia	400
Intrauterine PRP application	200
Monitoring within the scope of the stimulation (IVF, IUI)	250
<b>IVF</b>	
<b>Conventional IVF cycle (basic treatment)</b>	
Standard IVF cycle (oocyte retrieval and embryo transfer under anesthesia)	1 200
Standard IVF cycle without embryo transfer to the uterus	870
Oocyte retrieval with failure to acquire any oocytes	350
Interruption of the cycle before oocyte retrieval	180
<b>IVF - native cycle (without hormonal stimulation)</b>	
Oocyte retrieval with embryo transfer	580
Oocyte retrieval without embryo transfer	400
Oocyte retrieval with failure to acquire any oocytes	350
Interruption of the cycle before oocyte retrieval	150
Additional charge for general anesthesia at OPU (oocyte pick-up)	50
<b>IVF - soft cycle (short-term hormonal stimulation using lower doses)</b>	
Oocyte retrieval with embryo transfer	680
Oocyte retrieval without embryo transfer	450
Oocyte retrieval with failure to acquire any oocytes	350
Interruption of the cycle before oocyte retrieval	170
Additional charge for general anesthesia at OPU (oocyte pick-up)	50
<b>Duoestim IVF cycle</b>	1 600

Procedure	Price for self-payers (out-of-pocket price) in EUR
<b>PROCEDURES PERFORMED DURING IVF</b>	
<b>Oocyte fertilization techniques</b>	
Intracytoplasmic Sperm Injection (ICSI) 1 - 3 oocytes	280
Intracytoplasmic Sperm Injection (ICSI) of 4 - 10 oocytes	450
ICSI - each oocyte over 10	20
Intracytoplasmic Injection of Morphologically-Selected sperm (IMSI) * Košice facility only	150
Oocyte activation prior to ICSI	150
Sperm activation prior to ICSI	100
Fertilization of eggs using the ICSI method with the Oosight system - spindle view (ICSI is always necessary)	300
<b>Sperm selection method</b>	
Hyaluronic acid binding sperm selection PICSI	150
Magnetic-Activated Sperm Sorting (MACS)	280
Combined sperm selection by MACS + PICSI	380
Microfluidic Sperm Sorting (MSS)	260
Combined sperm selection MSS + PICSI	360
<b>Methods of embryo culturing</b>	
Prolonged culture (embryo culture by day 5 - 6 of development)	250
Time-lapse system for continuous embryo monitoring	350
Continuous embryo monitoring after thawing prior to KET	175
Continuous embryo monitoring with Time-lapse system + prolonged culture	550
Embryogen (embryo culture 3 days)	100
Embryogen/Blastgen (embryo culture for 5 days)	120
Individual cultivation of embryos in a chamber incubator	150
In vitro oocyte maturation	500
<b>Additional methods in embryo transfer</b>	
Laser Assisted Hatching (AH)	170
Laser-Assisted Zona Thinning (LAZT)	170
Embryo glue	130
Combined laser assisted hatching + embryo glue	250

Procedure	Price for self-payers (out-of-pocket price) in EUR
<b>DONOR PROGRAMS</b>	
<b>Oocyte donation program</b>	
<b>BASAL PROGRAM</b> (donor selection and stimulation, ICSI, chamber incubator, guarantee of 6 mature oocyte, no guarantee of blastocysts, freezing of the resulting embryos not included in the price)	4 400
Cryopreservation of the first embryo	150
Cryopreservation of each additional straw with an embryo	40
<b>OPTIMAL PROGRAM</b> (BASAL program + Time-lapse system, guarantee of at least 1 blastocyst*, 1st embryo transfer AH + EG, cryopreservation of one embryo included)	4 900
Cryopreservation of each additional straw with an embryo	40
<b>PREMIUM PROGRAM</b> (OPTIMAL program+ MACS/MSS, guarantee of 8 mature oocytes, fertilisation with Oosight spindle view, guarantee of at least 2 blastocysts*, cryopreservation of all embryos produced)	6 100
*more than 5 million sperm/ml, at least 1% normal sperm, at least 10% motile sperm, sperm DNA fragmentation less than 30%, partner under 50 years of age	
<b>A higher number of oocytes in programs with DO guaranteed</b> (during the second cycle with donor oocytes in our center - no additional charge)	750
<b>Embryo donation program</b>	
Cryoembryotransfer of the donated embryo (donated oocyte + donated sperm), 1 blastocyst guaranteed	1 700
Cryoembryotransfer of a donated embryo (donated oocyte + donated sperm) - genetically screened embryo	2 500
Receipt of donor sperm within the scope of IVF	250
Reservation of a donor embryo for 1 year	120
Reservation of donor sperm for 1 year	120
<b>CRYOPRESERVATION OF SEX CELLS AND EMBRYOS</b>	
<b>Embryo cryopreservation (freezing) and storage</b>	
Cryopreservation of the first blastocyst/straw	180
Cryopreservation of each additional straw with blastocysts	70
Cryopreservation of the first straw with an embryo to the stage of compacted morula and storage for 1 year	120
Cryopreservation of each additional straw with an embryo to the stage of compacted morula and storage for 1 year	30
Storage of embryos per month	10
<b>Cryopreservation of oocytes</b>	
Social freezing (egg freezing without medically indication) ovarian stimulation and oocyte collection	1 200
Cryopreservation of oocytes, 1 - 2 straws with oocytes	400
Cryopreservation of 3 - 4 straws with oocytes	500
Cryopreservation of 5 or more straws with oocytes	600
Storage of frozen oocytes per year	120
Fertilization of cryopreserved oocytes, embryo culture and subsequent transfer of the embryo to the uterus	650
Fertilization of cryopreserved oocytes, embryo culture, without embryo transfer	350
<b>Freezing of sperm and their storage</b>	
Freezing of sperm at the patient's own request and storage for 1 year	120
Sperm storage for each subsequent year	120

4/5

Procedure	Price for self-payers (out-of-pocket price) in EUR
<b>THAWING AND TRANSFER OF GERM CELLS AND EMBRYOS</b>	
Transfer of the thawed embryo to the uterus (CET)	300
Revitrification of a thawed embryo	100
Charge for general anaesthesia	50
Administrative fee for the preparation of documentation for the transport of biological material between tissue processing facilities - in Slovakia (over 30 km), including storage of the transported biological material for 1 year	200
Administrative fee for the preparation of documents for the transport of biological material between tissue processing facilities - abroad (within EU), including storage of the transported biological material for 1 year	600
Administrative fee for the preparation of documents for the transport of biological material between tissue processing facilities - abroad (outside the EU), including storage of the transported biological material for 1 year	900
<b>PREIMPLANTATION GENETIC EXAMINATION OF THE EMBRYO</b>	
Embryo biopsy	400
PGT-SR screening of structural changes of chromosomes (simultaneous aneuploidy screening) with NGS method - 1 embryo	300
PGT-A aneuploidy (24 chromosomes) using the NGS method - 1 embryo	300
PGT-M screening of monogenic disorders by karyomapping method - screening of reference samples + preparation	1600
PGT-M screening of monogenic disorders by karyomapping method - each embryo	380
PGT-M screening of selected monogenic disorders by vybraných OneGenePGT method - screening of reference samples + preparation	1200
PGT-M screening of selected monogenic disorders by OneGenePGT method - each embryo	300
Direct detection of mutations in the embryo by karyomapping	600
<b>OUTPATIENT SURGERY (SAME-DAY SURGICAL INTERVENTIONS)</b>	
Extirpation and excision of benign and malignant skin, subcutaneous tissue, and muscle tumors	100
Cervical conization	350
Vulvar excision - only as a therapeutic procedure in general anesthesia	350
Vaginal septal resection	290
Hysteroscopy (+ possible resection of uterine septum)	400
Curettage, including dilation	320
Review of the uterine cavity after miscarriage	320
Puncture of ovarian cysts	160
Excision from the vaginal wall for histology	220
Ablation of cervical polyp	260
Extirpation of skin tumors on external genitals	150
MESA/TESE surgical sperm retrieval	500
Selection of the operating surgeon, consultation	60
<b>SERVICES OF A GYNECOLOGICAL OUTPATIENT CLINIC</b>	
Consultation requested by the patient	50
Gynecological check-up requested by the patient	20
Pregnancy check-up requested by the patient	15
Insertion of an intrauterine device	20
Cytological smear from the cervix (slide)	8
Cytological smear from the cervix (liquid base cytology) + sampling material	33
Pipelle (endometrial scratching)	30
Slow hygroscopic dilation of the cervix	20
Intrauterine drug administration	20

Procedure	Price for self-payers (out-of-pocket price) in EUR
<b>CONSULTATIONS</b>	
<b>Consultations by external specialists</b>	
Initial genetic/immunological/urological consultation	50
Follow-up genetic/immunological/urological consultation	25
<b>IVF consultations</b>	
Repeated consultation at the request of patients in the Slovak language	50
Consultation for couples conducted in a foreign language (IVF coordinator)	100
Consultation for couples conducted in a foreign language - physician	200
Online consultation conducted in a foreign language (Teams, WhatsApp, etc.)	50
Complex of consulting activities for foreign patients	250
<b>GENETIC SCREENING TEST</b>	
TRISOMY test	350
TRISOMY test XY	390
TRISOMY test +	450
TRISOMY test Complete	530
TRISOMY test Complete + CF (Cystic fibrosis)	590
TRISOMY test Complete + SLOS (Smith-Lemli-Opitz syndrome)	635
TRISOMY test Complete + CF + SLOS	695
IVFGen Infertility - basic panel of genetic testing for couples in the diagnosis of infertility	250
IVFGen Carrier - expanded panel of genetic testing for couples in the diagnosis of infertility	500

Prices of the respective procedures indicated in the price list are final.

Any costs for medications and other procedures performed outside Gyncare facilities are not included in the price of the procedure.

Payments are due on the date of initiation of treatment in Gyncare.
